A division of Wyatt Management Consulting Inc.

Enriching your business through Valuable Consultation

Contract Opportunities

Researcher, Wyatt Health Management

Location: Virtual

Wyatt Health Management is a leading Canadian consulting firm that specializes in pharmaceutical reimbursement and market research. Our firm is growing rapidly due to our dedication to deliver good value to our clients. Due to this accelerating business growth, we require contract researchers who can provide assistance on an “as needed” basis.

What are we looking for?

Candidates **must demonstrate** that they have:

- An inquisitive mind
- A solid understanding of research and problem solving techniques
- An ability to work in teams and provide solutions
 - Strong organizational, communication, negotiation and interpersonal skills
- Good knowledge of computer software applications
 - Word processing, spreadsheet, presentations, databases

It would be an asset if the candidate:

- Understands government policy process, especially health care
- Is bilingual (French preferred)

The ideal candidates will be able to work independently and produce results without close supervision

Duties:

The researcher will:

- Conduct research as directed and assist in the development of research plans
- Support the operations of *Wyatt Health Management*
- Some travel may be necessary

Qualifications:

- Candidates will have post-secondary education training.
 - Persons currently enrolled in post-secondary educational programs may find this work interesting.

Compensation:

- Compensation will be based on an hourly rate.
- Researchers may be eligible for bonuses.
